TO WHOM IT MAY CONCERN

This is to confirm that we co-presented several anti-fraud training and education workshops with Masc Training and Advisory Services Management Consultants.

Delegates to the workshops that we co-presented included CEOs, Finance Executives and Managers, Risk Executives and Managers, Audit Executives and Managers, Internal Auditors, Forensic Auditors, Security Managers, Accountants, Investigations Officers, Operations Managers, Supervisors, Loss Control Officers, Risk Officers Accounts Clerks.

We have found their training material to be very educative and thoroughly researched, and is tailor-made to suit different levels of employees in organisations from shop floor employees to Executives. Their facilitators possess extensive expertise in anti-fraud, internal controls, ethics, risk management, governance and other related issues, and they have excellent presentation skills.

We do not hesitate to recommend them to train and educate on anti-fraud and related issues to employees at any level in any organisation.

Yours Faithfully

W. Majo
